GAMO COIN

Utility Of Coins

GAMO COIN (GAMO) is a token of the Binance Chain network that serves primarily to drive a decentralized network. on the basis of the process decentralized Finance (DeFi) to use coins in GAMO WORLD, with gas on the network, where Gas is a unit of gauge.

To be able to participate in GAMO WORLD, users have to pay a gas fee with GAMO coins. The amount of coins to be paid depends on the purchase and sale on GAMO WORLD. It can be concluded that Gas will be used. in these steps

- It is a fee for network transactions such as asset transfers, data storage, gaming, concerts, deposits, liquidity loans, etc.
- It is a fee for using smart contracts or decentralized applications or NFTs to run on the network.

Smart Contracts are used in every application running on the GAMO WORLD. The workflow of Smart Contracts is a transaction or a complex computer computation. The value of the gas fee paid with GAMO is related to the complexity of Smart Contracts.

Another utility of GAMO coins is that they can be redeemed for Fee Credits, or fees. Trade digital assets on GAMO WORLD as it will be announced and updated as GAMO WORLD NFT official website routine

Economic System Related To Coins
